

# Kishoore R

[kishooreravi29@gmail.com](mailto:kishooreravi29@gmail.com) | +91-90039-89128 | [linkedin](#) | [github](#)

## OBJECTIVE

Motivated third-year Computer Science student seeking internship opportunities to sharpen skills in web development, cloud computing, and data structures & algorithms. Interested in applying strong problem-solving abilities to real-world projects.

## EDUCATION

| Qualification | Institution / Board                                      | Result        |
|---------------|----------------------------------------------------------|---------------|
| UG – BE CSE   | RMK College of Engineering and Technology<br>(2023–2027) | CGPA 8.3 / 10 |

## INTERNSHIP

**Iproat Solutions** — Frontend Developer

June 17 – July 11, 2025

Project: **Pro-Media** (Web Development Domain)

- Improved reusable, responsive **React.js** components to enhance scalability and maintainability.
- Refactored interface and resolved cross-module inconsistencies to ensure uniform design standards.
- Implemented secure authentication workflows (login, registration, profile settings) with validation.
- Integrated **RESTful** analytics APIs to display real-time user engagement metrics in the dashboard.
- Optimized dashboard performance and interaction responsiveness, improving overall usability.

## SKILLS

- **Programming Languages:** Java, C++, C, JavaScript
- **Frameworks & Backend Technologies:** Spring Boot, Spring Security, React
- **Databases:** MySQL, MariaDB, MongoDB
- **Tools:** Linux CLI, Git, GitHub, Postman, Maven, IntelliJ IDEA, VS Code
- **Concepts:** Object-Oriented Programming, Data Structures & Algorithms (DSA), API Design, DBMS, JWT Authentication, Operating System, Computer Networks, Cloud Computing
- **Soft Skills:** Critical Thinking, Team Leadership, Communication, Public Speaking, Decision Making

## PROJECTS

### VantageHub

Developed a full-stack dashboard using **React** and **Spring Boot** to aggregate real-time metrics from 5+ social platforms via REST APIs. Implemented an asynchronous task engine for content scheduling and **Chart.js** for KPI visualization. Secured the system using **OAuth 2.0** and **Webhooks** for event-driven synchronization, ensuring high-performance and secure data management.

### FlashWork

Build a scalable marketplace for short-term engagements connecting independent job providers and part-time seekers. Engineered a secure authentication layer using **Spring Security** and **JWT** with **Role-Based Access Control** (RBAC). Designed a RESTful microservice architecture to manage real-time job lifecycles, ensuring high availability and data integrity using Spring Data **JPA**.

## CODING PROFILES

- **LeetCode:** 250+ Problems solved
- **Skillrack:** 2500+ Problems solved

## ACHIEVEMENTS

- 1st Place, Code Swap Showdown – Cybertrix'24 Symposium
- **Recognized High Performer** (RHP) in Coding, RMK Group

## CERTIFICATIONS

ServiceNow Certified System Administrator (CSA)
